

I believe Indiana's Telephone Privacy Law should be left alone. Unwanted phone calls have been drastically reduced since I signed up for the list. I was also able to help my 80-year-old grandfather get his name on the privacy list. Now, fast-talking telemarketers no longer force him into unwanted magazine subscriptions and other useless merchandise. Please do not allow the Consumer Bankers Association to take away our peace and quiet. We deserve to have quality time at home with our families.
